

“Every high school program should be promoting their players using this platform! College coaches constantly give us feedback that our recruiting site is the best they’ve seen. If you are looking for a high-quality recruiting site to promote your athletes, these guys are #1!! The features they have are unrivaled by other recruiting platforms.”

“The Athletic Academy has been a great resource for us to streamline communication of our student athletes here at Frederick Douglass High School. I love the website and how user friendly it is to input data. As the Head Coach I'm always looking for more ways of promoting our kids, and helping players achieve lifelong dreams of playing football in college. The Athletic Academy has been a great resource for us, and look forward to continuing this relationship.”

“I have been handling the recruiting at our high school for the past 5 years. During that time, we've had well over 40 of our players go on to play at the next level. Like most coaches, the recruiting period can be a struggle.

This site has been awesome. It has been an incredible time saver for me and more kids are definitely getting recognized. The scheduling feature is great, especially since now I don't have to try to coordinate times and can use more coaches in the building for it.

It has also made the whole process much less stressful for the coach. Everything is organized and all of the information is easily sent with a simple URL. On top of that, Corey and his team have been incredibly helpful throughout the process and are consistently making the platform better and better.”

“The Athletic Academy has provided Lexington Christian Academy (KY) with a game changing tool that has streamlined our ability to get our prospects in front of college coaches. It provides a one-stop shop for any coach that contacts our staff about our student-athletes. User friendly product that has made coordinating recruiting so much easier! We went from making individual PDF files for each player on our roster that we had to edit constantly to having all profiles in one place all while having the ease of editing. A college coach recently told me that he wished all high school’s had this product.

The Athletic Academy provides a first-class customer service experience as well! If you are thinking about partnering with them, DO IT!”

“The Athletic Academy has been an invaluable tool for us ever since we subscribed to the platform last season. College coaches have complimented us on our page design, flow and organization. They have everything they need to start the recruiting process of our student-athletes. Our players and their families have made the most of the tool as well, utilizing the college search function to find camps, get in contact with recruiting coordinators and research colleges. We will continue to be fans of The Athletic Academy this season and beyond.”

“The Athletic Academy provides our school with a great website. The college search tool is so convenient when trying to find schools. I am currently at Bob Jones High School, but if I ever get the chance to become a head coach – I definitely will reach out and get this set up to help players get connected with college coaches.”

-Derrick Whittington | **Bob Jones (AL)**

“Sparkman High School has been using The Athletic Academy for over a year now. It has streamlined the recruiting process and helped our players gain greater exposure with college scouts. The website is user friendly and allows students to help manage their own marketing. It is a time saver for coaches with everything in one easy to manage website. Their customer service is top notch and easy to work with. The Athletic Academy is worth every penny!”

-Ronnie Watson | **Sparkman (AL)**

“We have only been with The Athletic Academy a few weeks, but everything I have ever talked to our kids about with recruiting is already a part of their player card, and now they can just add it. It has been super easy to set things up, and I am not great with computers!! Any questions have been quickly answered by their support team. Having access to The College Search Tool is absolutely essential. It is super easy for our players or coaches to find college coach contacts. It also puts the college recruiting questionnaire at the player’s fingertips. I have also has been very impressed with the support and zoom meetings from The Athletic Academy. They want to ensure that we understand and get full use of the program for our coaches and players.”

-Russell Floyd | Great Crossing (KY)

“The team recruiting platforms from The Athletic Academy has allowed our coaching staff to be much more efficient in the recruiting process. The player profiles make it easy for college coaches to find information and the The College Search Tool provides a wealth of information for parents, coaches and student-athletes. We're sold on it!”

“The Athletic Academy checks all the boxes for what you want in a recruiting platform. Utilizing this platform makes life easier for high school and college coaches alike. It is the most effective way to get high school kids maximum exposure.”

-Jared Cate | Panther Creek [TX]

“Great site to gather all your student athletes information and easily send it out to recruiters and on social media. Have received many positive comments from recruiters. Recruiters have said it made it easy to find all the information they need. The site's staff have always been helpful in support of the webpage, and have even added some requests. Overall, a good value and very helpful in our recruiting process. I would definitely recommend them.”
